

What's in Your Future?

You have probably heard the saying "It is darkest before dawn." We, at CampusJobXpress, are here to tell you that even though things may seem dark and lonely, we are with you.

CJX is bringing you gifts for the season and want to hear from you on what you are seeking. In one of our classes, we teach that you get what you think! Many of us are thinking, "We are too old," "I don't have what an employer is looking for in an applicant," "They don't pay enough." These are all the negative statements that exist in your mind. What you don't realize is that your mind will give you what you think. If you think negative, it will give you negative. Therefore, you need to think positive to get more positive results.

We ask you to write, think and express what you are seeking and be specific. If you are willing to share, tell us and we may be able to help. We are ready to offer you more assistance as the New Year draws near.

What do you want out of your life?

May your Seasons be bright!!! Merry Christmas and a most Prosperous New Year!
